

Diversity Leadership Project

Training intervention program to promote dialog and authentic equity, inclusion and diversity leadership.

This is a customized organizational training intervention and interactive video learning experience, “starring” employees from your organization. The program has three parts:

- Interviews with Organizational Employees to determine DEI views
- Transcribe and create a customized script for the DEI Interactive Video
- Produce and Deliver the Online Learning program, featuring organizational employees.

The training intervention facilitates an internal dialog about Diversity, Equity, and Inclusion while supporting internal diversity allies. The program is customized, based on organizational needs. Pre and post research surveys are used to establish baseline knowledge and track attitude change over time.

Next Steps:

[RSVP for the next open house web meeting](#)

(Web meetings are held periodically. You will receive the schedule after registering.)

Make an appointment for a [proposal discussion](#) at your organization
